Daily. Ex. Sun.		Wednesday and Saturday.	Daily.	Daily.				Daily.	Daily.	Wednesday and Saturday.	Daily, Ex. Sun.

SPECIAL RULES.

☞ All Trains will use at least *seven minutes* in passing through *San Fernando tunnel* (at a uniform rate of speed) and keep *red lights* burning on rear of train; and all engines must have head-light burning before entering tunnel.

☞ *Santa Barbara yard* will extend to and include *Victoria Street station.* Trains will run with care.

Mojave will be terminal point for all trains.

☞ Train No. 47 has right of track to Elwood against Train No. 48.

Freight trains Nos. 23, 26, 45 and 46 may carry passengers; no other freight trains will carry passengers, except on a special order, or as per Rule 242.

The limits of *Los Angeles yard* will extend to the *Yard-limit board west of the Los Angeles River;* and all trains will proceed with care within these limits.

Limits of *Bakersfield yard* will extend to *Corral Track.* All trains will proceed with care within these limits.

All passenger trains, except Trains Nos. 17, 18 and 20, will stop on signal at Dundee and Roscoe Spurs, between Pacoima and Burbank.

All passenger trains will stop on signal at Summerland, Smith's Spur and Miramar.

All east-bound trains must be under full control before passing through *tunnel just west of Saugus.* Speed must be reduced so that it will not be possible to strike any train or engine doing work at west switch. This, however, will not relieve conductors of responsibility of properly protecting their trains when standing at or doing work at that station.

Trains descending grade between *Tehachapi* and *Caliente*, and between *Vincent* and *Lang*, will keep fifteen (15) minutes apart, and it will be the duty of agents and operators to *flag* and advise any train following another within that limit. Freight trains may follow light engines ten (10) minutes apart.

Pusher engines, when coupled to rear end of train, *must in all cases cut off to take water.*

Passenger trains will not exceed a speed of twenty miles per hour between *Tehachapi* and *Caliente*, or twenty-two miles per hour between *Vincent* and *Lang.* Freight trains will not exceed a speed of fifteen miles per hour between those points.

Trainmen will test the automatic brake from rear end of train, as per Rule 70 in Westinghouse Automatic Brake Instructions, at Fernando, Saugus, Vincent, Tehachapi and Keene.

Trains ascending grades will take siding for opposing trains of same class, except at points where necessary to take water between switches on main line.

Trains with twelve-wheel engines will not exceed a speed of twenty-five miles per hour over any part of division.

Trains will not leave River Station, Mojave, Bakersfield or Santa Barbara without orders or clearance card.

Clocks at Bakersfield, Mojave, Palmdale, Saugus, Santa Barbara and Fernando will be Standard time for this Division.

In pulling out of stations, brakemen must watch wheels closely to see that brakes are fully released, and will immediately signal engineers to stop if wheels are found sliding. Engineers must keep a sharp lookout for such signals, as per Rule 278. Each brakeman will be held responsible for any wheels slid flat under the part of the train in his charge. Conductors in reporting flat wheels will give name of brakeman in charge.

See Rule 84.—All west-bound trains have the absolute right of track over all trains of the same class running in the opposite direction.
